

MANGO CROP REPORT

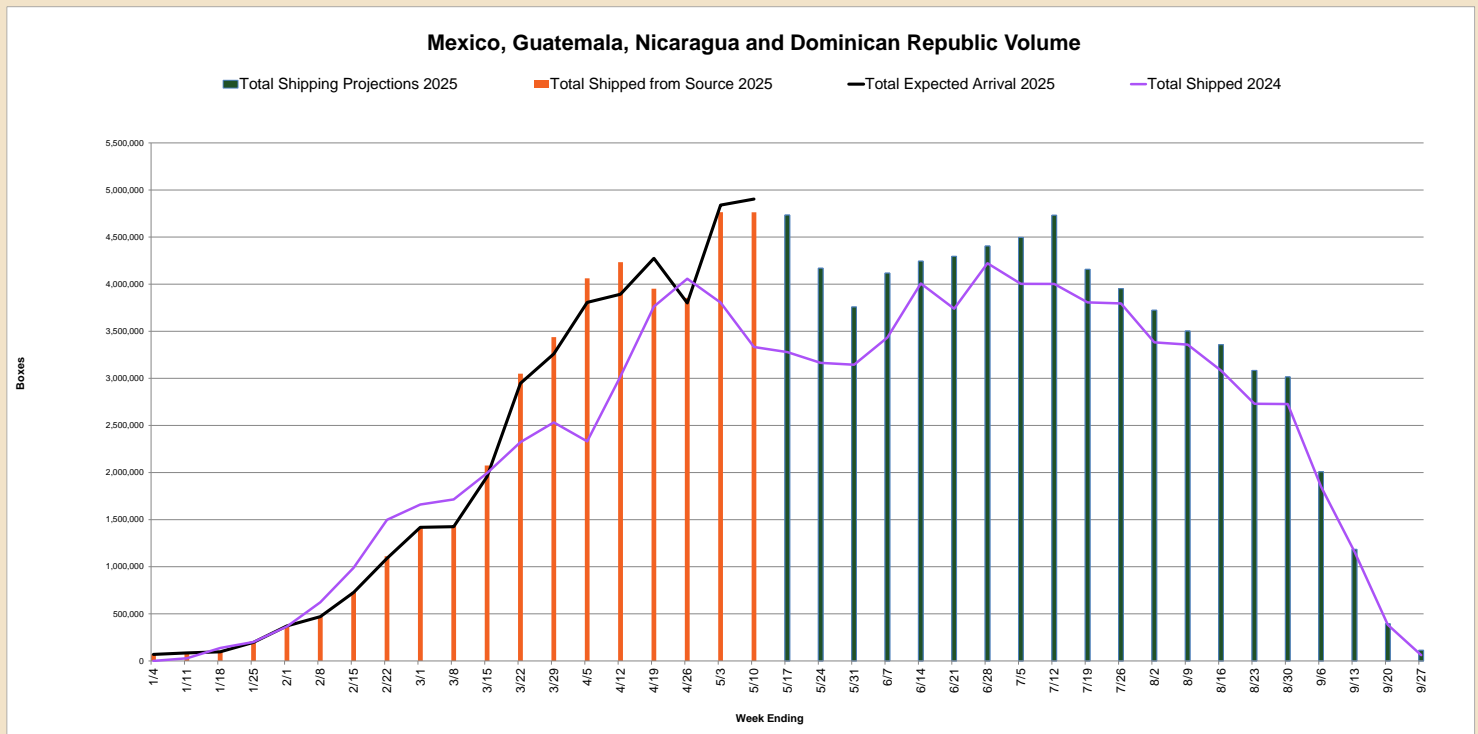

Updated May 15th, 2025

Please refresh your browser to upload the most current report

The National Mango Board (NMB) publishes the Mango Crop Report on a regular basis using information from industry organizations and other sources in an effort to provide the best available information on shipment projections, actual arrivals, variety and size availability, and other figures considered useful to the U.S. mango market. Although this information is updated regularly, changes can occur due to numerous factors at any given moment in time. Accordingly, the Mango Crop Report should only be used as a guide.

SUMMARY: Mexico, Guatemala, Nicaragua and Dominican Republic

- ◆ **EXPORTING REGIONS:** Mexico, Guatemala, Nicaragua and Dominican Republic are currently harvesting and/or packing.
- ◆ **VARIETIES:** There are currently **TWO** main mango varieties shipped to the US market: Tommy Atkins (63%) and Ataulfo/Honey (30%). There are also limited supply of Haden, Kent, Keitt, Mingolo and Madame Francis. See page 3.
- ◆ **SIZING:** (Ataulfo/Honey: Large = size 16 and larger, Small = size 18 and smaller. Round mangos: Extra Large = 7 and larger, Large = sizes 8 and 10, Small = 12 and smaller.)
- ◆ **RECENT VOLUMES:** Total mango volume shipped on week ending **05/10/2025** was approximately **4,763,235 boxes**.
 - ◇ **Mexico:** Volume shipped was approximately **4,223,923** boxes for a total of **34,885,303** boxes for the season.
 - ◇ **Guatemala:** Volume shipped was approximately **273,762** boxes for a total of **3,528,684** boxes for the season.
 - ◇ **Nicaragua:** Volume shipped was approximately **66,000** boxes for a total of **736,675** boxes for the season.
 - ◇ **Dominican Republic:** Volume shipped was approximately **199,550** boxes for a total of **1,021,094** boxes for the season.
- ◆ **FUTURE VOLUMES:** Overall mango volume shipped from week 20 (05/17/2025) to week 24 (06/14/2025) is expected to be about 21% higher YOY, with arrivals expected from week 21 to 25. The 2025 Mexican season is expected to be about 12% higher YOY. The 2025 Guatemalan season is expected to be about 14% higher YOY. The 2025 Nicaraguan season is expected to be about 74% higher YOY.

Please note: U.S. entry ports report incoming volume on different schedules; some report daily and some weekly. This causes discrepancies between the volume shipped from the source and the volume arrived at the U.S. entry ports in any given week.

Projections are adjusted throughout the season as new information is received.
