

MANGO CROP REPORT

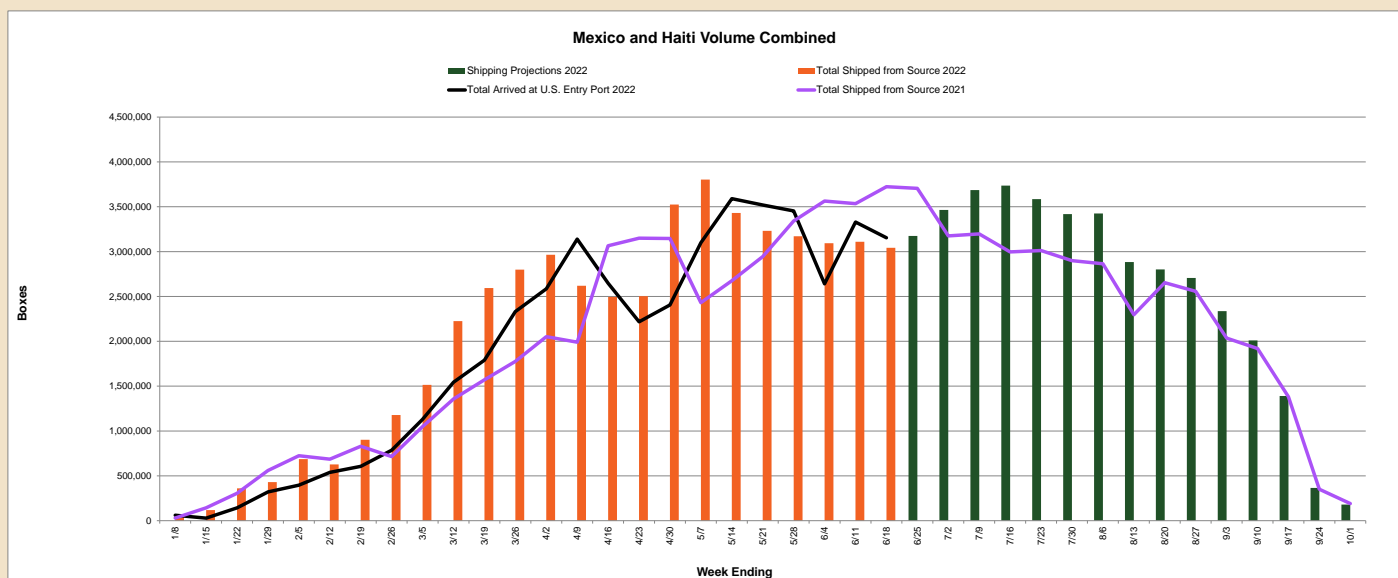

Updated June 24, 2022

Please refresh your browser to upload the most current report

The National Mango Board (NMB) publishes the Mango Crop Report on a regular basis using information from industry organizations and other sources in an effort to provide the best available information on shipment projections, actual arrivals, variety and size availability, and other figures considered useful to the U.S. mango market. Although this information is updated regularly, changes can occur due to numerous factors at any given moment in time. Accordingly, the Mango Crop Report should only be used as a guide.

SUMMARY: Mexico and Haiti

- ◆ **EXPORTING REGIONS:** Mexico (Oaxaca, Chiapas, Michoacan, Nayarit and Sinaloa) and Haiti are currently harvesting and packing. See pages 3-5 and 6-7 respectively, for more details on each country.
- ◆ **VARIETIES:** There are currently THREE main mango varieties available in the market: Tommy Atkins (48%), Ataulfo/Honey (34%) and Kent (12%). There are also limited supplies of Keitt, Francis, Mallika and Haden. See pages 2, 4 and 7.
- ◆ **SIZING:** (Ataulfo/Honey: Large = size 16 and larger, Small = size 18 and smaller. Round mangos: Extra Large = 7 and larger, Large = sizes 8 and 10, Small = 12 and smaller.)
 - **Mexico (Season average):** 52% of Ataulfo/Honey are Large and 48% are Small; 25% of Tommy Atkins are Extra Large, 55% are Large and 20% are Small; 40% of Keitt are Extra Large, 47% are Large and 13% are Small; 40% of Kent are Extra Large, 50% are Large and 10% are Small. See tables on page 5.
- ◆ **RECENT VOLUMES:** Total mango volume shipped on week ending 6/18/2022 was approximately 3,042,971 boxes.
 - ◇ **Mexico:** Volume shipped was approximately 3,015,791 boxes for a total of 49,265,837 boxes for the season.
 - ◇ **Haiti:** Volume shipped was approximately 27,180 boxes for a total of 1,212,993 boxes for the season.
- ◆ **FUTURE VOLUMES:** Overall mango volume shipped from week 25 (6/25/2022) to week 32 (8/13/2022) is expected to be about 13% Higher YOY, with arrivals expected from week 26 to 33. The 2022 Mexican season is projected to be about 13% higher YOY. The 2022 Haitian season is projected to be about 35% lower YOY. See page 2 for total and weekly volumes, and pages 4 and 7 for individual country volume

Please note: U.S. entry ports report incoming volume on different schedules; some report daily and some weekly. This causes discrepancies between the volume shipped from the source and the volume arrived at the U.S. entry ports in any given week.

Projections are adjusted throughout the season as new information is received.

Crop Report Tools and Resources

The Mango Crop Report is updated weekly and can be found at mango.org/crop

Note: the National Mango Board is working with organizations in the mango-producing countries to get projections of what will be shipped to the U.S. This document contains information from countries that are currently shipping or planning to ship in the near future to the U.S. and does not represent the entire year. The crop report document will be updated as we receive new information from each country. Other valuable tools include (these are links):
