

# MANGO CROP REPORT

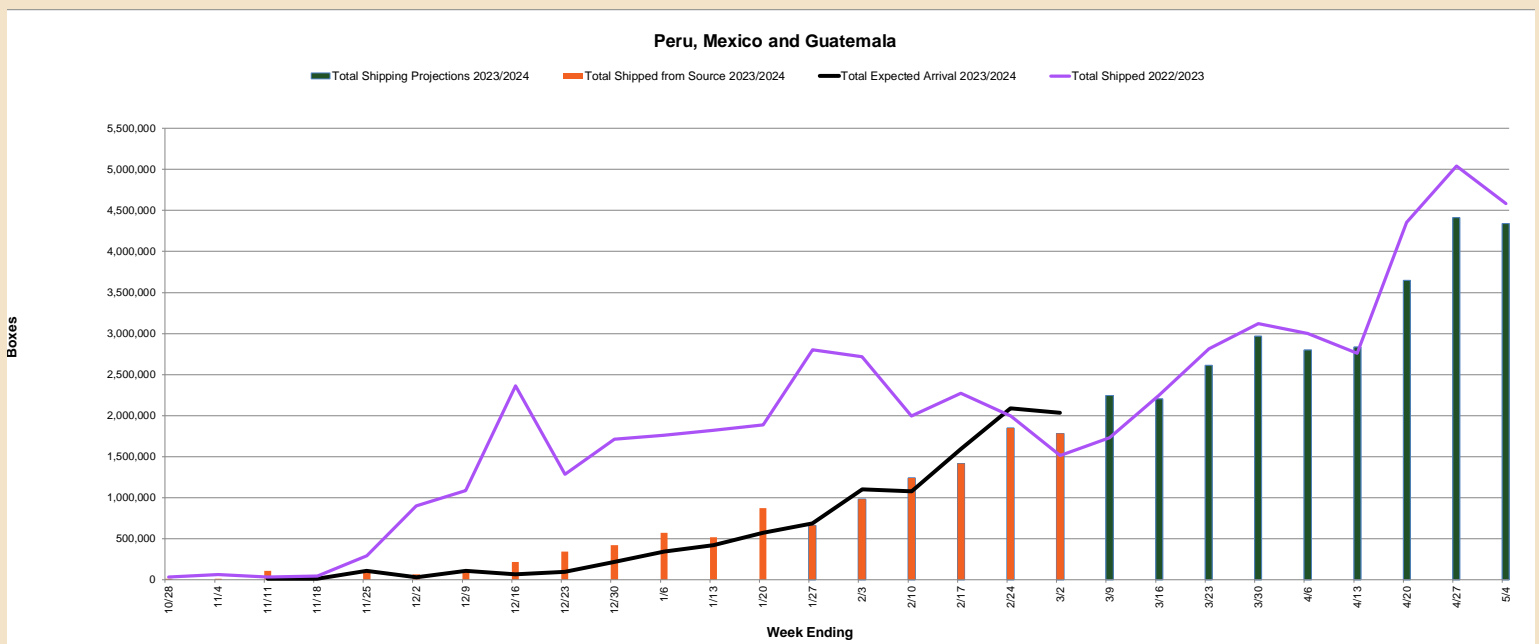

## Updated March 8, 2024

Please refresh your browser to upload the most current report

The National Mango Board (NMB) publishes the Mango Crop Report on a regular basis using information from industry organizations and other sources in an effort to provide the best available information on shipment projections, actual arrivals, variety and size availability, and other figures considered useful to the U.S. mango market. Although this information is updated regularly, changes can occur due to numerous factors at any given moment in time. Accordingly, the Mango Crop Report should only be used as a guide.

### SUMMARY: Peru, Mexico and Guatemala

- ◆ **EXPORTING REGIONS:** Peru, Mexico and Guatemala are currently harvesting and/or packing. See pages 3-5, 6-7 and 8-9 respectively for more details.
- ◆ **VARIETIES:** There are currently TWO main mango varieties shipped to the US market: Tommy Atkins (44%) and Ataulfo/Honey (41%). There are also limited supply of Kent, Haden, Nan Doc Mai, Manila and Thai. See page 2.
- ◆ **SIZING:** (Ataulfo/Honey: Large = size 16 and larger, Small = size 18 and smaller. Round mangos: Extra Large = 7 and larger, Large = sizes 8 and 10, Small = 12 and smaller.)
- ◆ **RECENT VOLUMES:** Total mango volume shipped on week ending 03/02/2024 was approximately 1,780,610 boxes.
  - ◇ **Peru:** Volume shipped was approximately 161,402 boxes for a total of 5,849,618 boxes for the season.
  - ◇ **Mexico:** Volume shipped was approximately 1,596,808 boxes for a total of 5,398,264 boxes for the season.
  - ◇ **Guatemala:** Volume shipped was approximately 22,400 boxes for a total of 29,785 boxes for the season.
- ◆ **FUTURE VOLUMES:** Overall mango volume shipped from week 10 (03/09/2024) to week 17 (04/27/2024) is expected to be about 5% lower YOY, with arrivals expected from week 11 to 18. The 2023/2024 Peruvian season is expected to be about 73% lower YOY. The 2024 Mexican season (up to week 18-05/04/2024) is expected to be about 1% higher YOY. The 2024 Guatemalan season is expected to be about 5% lower YOY. See page 2 for total and weekly volumes and pages 4, 7 and 9 for individual country volume.

**Please note:** U.S. entry ports report incoming volume on different schedules; some report daily and some weekly. This causes discrepancies between the volume shipped from the source and the volume arrived at the U.S. entry ports in any given week.

Projections are adjusted throughout the season as new information is received.

# Crop Report Tools and Resources

*The Mango Crop Report is updated weekly and can be found at [mango.org/crop](https://mango.org/crop)*

Note: the National Mango Board is working with organizations in the mango-producing countries to get projections of what will be shipped to the U.S. This document contains information from countries that are currently shipping or planning to ship in the near future to the U.S. and does not represent the entire year. The crop report document will be updated as we receive new information from each country. Other valuable tools include (these are links):
