

# MANGO CROP REPORT

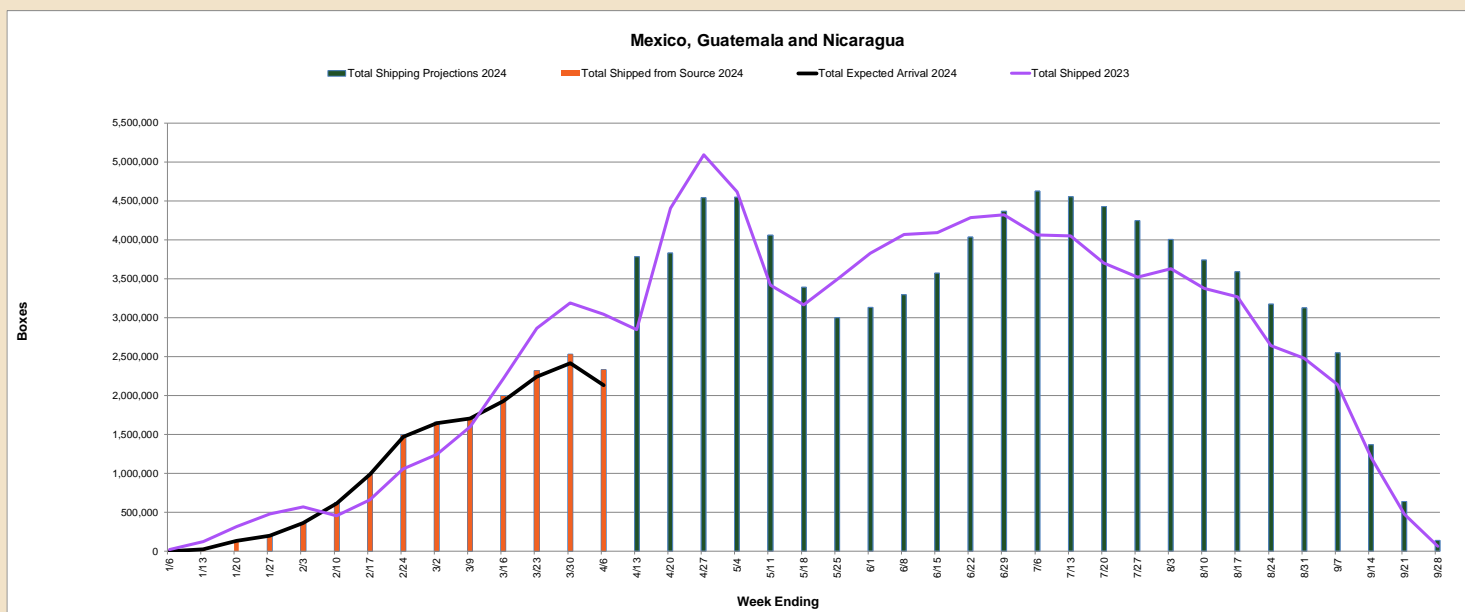

## Updated April 11, 2024

Please refresh your browser to upload the most current report

The National Mango Board (NMB) publishes the Mango Crop Report on a regular basis using information from industry organizations and other sources in an effort to provide the best available information on shipment projections, actual arrivals, variety and size availability, and other figures considered useful to the U.S. mango market. Although this information is updated regularly, changes can occur due to numerous factors at any given moment in time. Accordingly, the Mango Crop Report should only be used as a guide.

### SUMMARY: Mexico, Guatemala and Nicaragua

- ◆ **EXPORTING REGIONS:** Mexico, Guatemala and Nicaragua are currently harvesting and/or packing. See pages 3-5, 6-7, 8-9 respectively for more details.
- ◆ **VARIETIES:** There are currently TWO main mango varieties shipped to the US market: Tommy Atkins (55%) and Ataulfo/Honey (39%). There are also limited supply of Haden, Keitt, Manila and Thai. See page 2.
- ◆ **SIZING:** (Ataulfo/Honey: Large = size 16 and larger, Small = size 18 and smaller. Round mangos: Extra Large = 7 and larger, Large = sizes 8 and 10, Small = 12 and smaller.)
- ◆ **RECENT VOLUMES:** Total mango volume shipped on week ending **04/06/2024** was approximately **2,331,542 boxes**.
  - ◇ **Mexico:** Volume shipped was approximately **1,831,270** boxes for a total of **15,151,464** boxes for the season.
  - ◇ **Guatemala:** Volume shipped was approximately **443,472** boxes for a total of **1,028,830** boxes for the season.
  - ◇ **Nicaragua:** Volume shipped was approximately **56,800** boxes for a total of **216,583** boxes for the season.
- ◆ **FUTURE VOLUMES:** Overall mango volume shipped from week 15 (04/13/2024) to week 20 (05/18/2024) is expected to be about 2% higher YOY, with arrivals expected from week 16 to 21. The 2024 Mexican season is expected to be about 2% higher YOY. The 2024 Guatemalan season is expected to be about 14% higher YOY. Nicaraguan season is expected to be about 0.5% higher YOY. See page 2 for total and weekly volumes and pages 4, 7 and 9 for individual country volume.

**Please note:** U.S. entry ports report incoming volume on different schedules; some report daily and some weekly. This causes discrepancies between the volume shipped from the source and the volume arrived at the U.S. entry ports in any given week.

Projections are adjusted throughout the season as new information is received.

# Crop Report Tools and Resources

*The Mango Crop Report is updated weekly and can be found at [mango.org/crop](https://mango.org/crop)*

Note: the National Mango Board is working with organizations in the mango-producing countries to get projections of what will be shipped to the U.S. This document contains information from countries that are currently shipping or planning to ship in the near future to the U.S. and does not represent the entire year. The crop report document will be updated as we receive new information from each country. Other valuable tools include (these are links):

[Three-Year Trend by Country & Month](#)
